---

Good afternoon, Cory,

Reference is made to ORM ID **SAW-2024-01120 (South Harding Drive and Heather Drive / Goldsboro Family YMCA Inc/Goldsboro / Wayne County) Delineation Concurrence**, please reference this number on any correspondence regarding this action.

On September 4, 2024, the Corps conducted an onsite review of the 43.54-acre review area located at east of the intersection of South Harding Drive and Heather Drive in Goldsboro Wayne County, North Carolina to review the boundaries of the aquatic resources delineation you submitted on June 3, 2024.

We have reviewed the information provided by you concerning the aquatic resources, and by copy of this e-mail, are confirming that the aquatic resources delineation has been verified by the Corps to be a sufficiently accurate and reliable representation of the location and extent of aquatic resources within the identified review area. The location and extent of these aquatic resources are shown on the attached delineation figure, labeled "*Figure 3: Preliminary Jurisdictional Determination WOTUS Sketch Map Harding Drive Property*" and dated September 5, 2024.

Regulatory Guidance Letter (RGL) 16-01

<https://usace.contentdm.oclc.org/utis/getfile/collection/p16021coll9/id/1256> provides guidance for Jurisdictional Determinations (JD) and states "The Corps generally does not issue a JD of any type where no JD has been requested". At this time, we are only verifying the delineation. This delineation may be relied upon for use in the permit evaluation process, including determining compensatory mitigation. "This verification does not address nor include any consideration for geographic jurisdiction on aquatic resources and shall not be interpreted as such. This delineation verification is not an Approved Jurisdictional Determination (AJD) and is not an appealable action under the Regulatory Program Administrative Appeal Process (33 CFR Part 331). However, you may request an AJD, which is an appealable action.

If you wish to receive a Preliminary Jurisdictional Determination (PJD), or an Approved Jurisdictional Determination (AJD) please respond accordingly, otherwise nothing further is required and we will not provide any additional documentation.

The delineation included herein has been conducted to identify the location and extent of the aquatic resource boundaries and/or the jurisdictional status of aquatic resources for purposes of the Clean Water Act for the particular site identified in this request. This delineation may not be valid for the Wetland Conservation Provisions of the Food Security Act of 1985, as amended. If you or your tenant are USDA program participants, or anticipate participation in USDA programs, you should discuss the applicability of a certified wetland determination with the local USDA service center,

prior to starting work.

Respectfully,  
Anthony Scarbraugh
